Work Experience

Web Development

Freelance Development - Owning and operating a freelance web development company. The following websites have been designed, developed and deployed by my business partner and me.

- bonsaidesign.com.au - HTML, CSS, Javascript: Static multi-page website for a freelance web development company with CSS animations.
- uqbars.com - Wordpress: Static promotions site for a university social club.
- gasespresso.com.au - Wordpress: Interactive one page information site for a boutique cafe and restaurant.
- wellnessforlaw.com.au - Wordpress: Blog and resource for promoting mental wellness in the law profession.
- bagit.me - Wordpress: Ecommerce backpack retailer.

Tutoring - Tutoring DECO1400 (Introduction to Web Design) at St John's College. The course covers:

- HTML, CSS and Javascript.
- Human-centered design techniques.
- Using JQuery to create dynamic websites.

Hospitality

Mary Street Catering - Part time work for a catering company primarily focussed on providing a cafe and restaurant for The Village at Yeronga, a retirement village. This places an emphasis on friendly interaction with customers, as most customers return at least once a week, if not every day. (2015 - Present)

- Barista work - Skilled at making coffee and delicious breakfast food.
- Waiting - Waiting tables for large functions of up to 100 people as well as smaller services (around 30 people) for both lunch and dinner
- Kitchen work - Various kitchen jobs (eg. table setting, service prep, cleaning)

Technologies

- Object Oriented Programming: **Python**, **Java**
- Functional: *Clojure*, *Haskell*
- Other: *C*, *Assembly*
- Web Development: **HTML**, **CSS**, **Wordpress**, Javascript/JQuery, Elm, Flask, Ruby on Rails
